### TERMS WE THROW AROUND...

#### MEGAHH BEANS®

Megahh Beans aren't magic beans, but they're close! We brought our smartest geeks together in one lab and locked the door until they came up with an ingenious breakthrough. The result? Megahh Beans. We patented it, became the exclusive manufacturer and creator of the Megahh Beans, and, after awhile, we even let the geeks out of the lab. We're sure that you will enjoy them just as much as us.

#### AHHSOME FOAM®

All it takes is one sit to understand exactly why our one-of-a-kind Fuf Collection has brought bean bags out of your grandparent's dusty basement and into college campuses, bedrooms and living rooms around the world. This patented memory foam is super soft, and long lasting. Simply re-Fuf your product again and again! In fact, the hardest part about sitting down on any product with Fuf is convincing yourself it's time to get up.

#### ORAHH®

Comfort Research is breaking the mold, literally, of how traditional furniture is made. Instead of a traditional metal or wood frame, Orahh is a patented carbon-molecular structure that's extremely lightweight that doesn't compromise strength or quality.

A photograph of a living room interior. In the center, a wooden shelving unit with white trim holds various items: a silver stereo receiver on the left, a small white speaker below it, a stack of books including 'THE LEIBOVITZ AMERICAN MUSIC' and 'DANNY CLINCH', and a yellow piggy bank on the top shelf. To the right, a vintage camera and a small electronic device are on the shelf. Above the shelf, a framed picture hangs on the wall. In the foreground, a person's leg in dark pants and a brown bracelet is visible, sitting on a white, shaggy rug. A textured, light-colored rug is on the floor. The text 'LIFE IS HARD OUR CHAIRS AREN'T' is overlaid in large, bold, orange letters.
